

**Why am I being charged \$3.55 for using my credit card to pay my bill?**

Frognot WSC had been charged \$3,300.00 per year, for *each* of the last 4 years, by the credit card processor to allow 80+ members to pay their water bill by credit card. This meant that the Frognot members, who paid their bill by other methods, were subsidizing them. We have changed credit card processors, which has allowed us to pass the cost of credit card processing to the credit card payer. The charge is \$3.55 per transaction.
